DATE: April 8, 2013

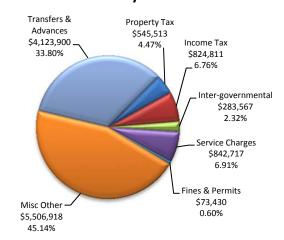

RE: March 2012 Financial Condition Report

The month of March was very productive in the Finance department. During March, we successfully completed the issuance of approximately \$5.4 million in one-year bond anticipation notes (BANs) and were pleased with the outcome. The net interest cost on the bonds was 0.685%, with a stated coupon of 1.5%. We received approximately \$60 thousand in premium on the bonds, which more than covered the costs of issuance. In addition to completing the 2013 bond issuance, we also continued to spend considerable resources on completing the supporting documentation and schedules for the basic financial statements (BFS) and CAFR. We also worked on the following projects: (1) coordinated and arranged for a capital lease arrangement for the MARCS radios with Motorola for the acquisition of the equipment; (2) arranged for the replacement of the copier in the Council Clerk's office; (3) prepared and distributed employee health insurance open enrollment letters; (4) collected TIF-related information for the annual

TIRC reporting; (5) developed a draft RFP document for municipal building cleaning services; (6) coordinated with the Law Director to create an updated city policy for gifts and donations; (7) began development of legislation to amend the park use fee structure; and (8) held a bid opening for the Brightwaters lift station paving project. A total of three bids were received, with a low base bid of \$23,450, as compared to an engineer's estimate of \$20,550.

April 2013 will also be a very busy month, in that we plan to: (1) complete the preparation of the 2012 financial statements; (2) begin development of the CAFR documents, including letter of transmittal, Management's Discussion & Analysis

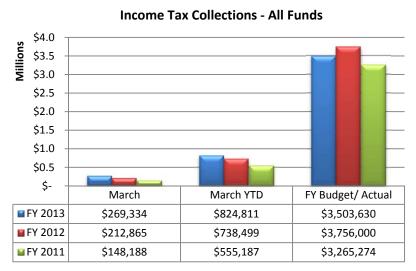

YTD Revenue by Source

(MD&A) and the statistical section; (3) begin implementation of the human resources management system; (4) prepare final draft of supplemental appropriation ordinance for third reading; (5) get the accounting system replacement project underway; (6) hold bid openings for Broad/Vine/Oak Meadow sidewalk and Summit Road drainage projects; and (7) complete and submit the 2011 US Census data request.

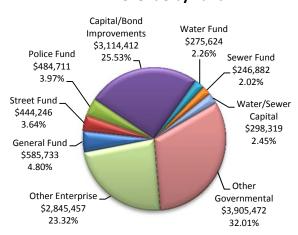

After three months into 2013, I am pleased to present this report on the financial condition of the city as of March 31, 2013. On a year to-date cash basis, the city has collected approximately \$12.2 million in total revenue from all sources, or 50.53%% of the full-year budget. This total is distorted, however, by the inclusion of \$5.4 million in debt issuance revenue, \$4.12 million in transfer/advance revenue and the collection in March of \$545 thousand in property taxes. Excluding the \$9.5 million in debt/transfer revenue from the equation, as well as adjusting for the timing of the property tax revenues would result in year to-date collection rate that is equal to 22.02% of budget. This amount is slightly below the 3-month straight-line rate of 25%. The shortfall was primarily the result of: (1) income tax collections running \$51.1 thousand below the straight-line rate; (2) \$57 thousand in homestead/rollback revenues not yet received from the state; and (3) \$1.7 million in grants/loans not yet received (\$500 thousand – Mink Street/OPWC, \$225 thousand – MARCS tower/LGIF, \$745 – SRTS, \$275 thousand – CHIP/CDBG).

Income tax collections for the month were \$269,334 and were 26.53% higher than last year when compared to March 2012. Total year to-date collections are \$824.8 thousand (23.54% of budget), and when compared to a March 2012 YTD total of \$738.5 thousand, are \$86.3 thousand or 11.68% higher. The full-year 2013 budget is currently projected to be \$3.5 million. It is important to note that the March 2012 year to-date collections were 19.66% of full-year actual collections.

The city has received the first-half property tax settlement from Licking County. Total property taxes received to-date are \$545,513 and are \$77.2 thousand, or 16.48% higher than the same period in 2012. The increase is due to: (1) higher real

YTD Revenue by Fund

property tax collections (up \$25.4 thousand, or 6.09%); and (2) increased TIP payments in lieu of taxes (PILOT) which were up by \$51.8 thousand, or 100%. The 2013 budget in this line is \$923.0 thousand and is projected to be up by \$5.7 thousand (0.62%) above the 2012 full-year collections. This total also includes approximately \$106 thousand in TIF receipts, and approximately \$5 thousand in other property tax revenues.

Intergovernmental revenues represent one of the largest revenue categories for the city. They reflect funding from the federal, state and county governments. The revenues can come

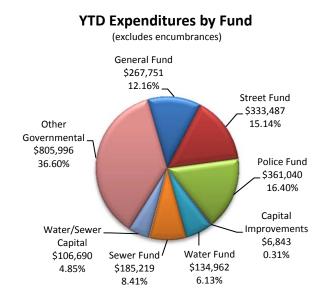

in the form of loans, grants or reimbursements. For 2013, a total of \$2.84 million is budgeted, with \$1.70 million of the total expected to come from grants and loans. Through March 31, a total of \$283.6 thousand was collected (9.98% of the category budget) has been collected. Most of the current shortfall is due to: approximately \$500 thousand in Mink Street grant/loan proceeds from OPWC that will be received later in 2013; \$711 thousand in Safe Routes to School grants not yet received; \$242 thousand in CHIP/CDBG project reimbursements not received; and \$225 thousand MARCS LGIF loan not yet received.

Service charge revenues are another major revenue category for the city. As the title would imply, these revenues are received in exchange for providing services to residents, businesses and other customers. For 2013, approximately \$3.12 million has been budgeted for total service charge revenues. Year to-date collections are \$842.7 thousand, or 27.02% of the budget. The three-month total is up by \$219.5 thousand (35.22%) when compared to the same period in 2012. At \$2.95 million or 94.49% of the category budget, water and sewer usage fees represent the largest single component of this category. Usage fees collected through March 31 are \$802.5 thousand, or 27.23% of the full-year budget in this line item. In comparison, March 2012 year to-date collections were \$583.6 thousand and represented 22.62%% of the full-year 2012 actual collections. This would indicate that collections are continuing to run ahead of the 2013 estimates. Provided that the current trend continues, water and sewer service charge revenues could be running between \$250-500 thousand better than budget on a full-year basis.

With Q1-2013 under our belt, spending appears to be in line with expectations, although several areas have accelerated annual spending into early-2013. As of March 31, the combined total unencumbered balance as a percentage of the budget (for all funds) is 38.4%. This compares favorably when compared to the 3-month straight-line rate of 25%, although the carryover of 2012 purchase orders into 2013 and the issuance of full-year 2013 purchase orders has the effect of understating the carryover ratio.

The general fund ended the month of March 2013 with an unencumbered balance of \$310,257, and is down by \$824.9 thousand, or 72.67% from February 2012. In addition, the Street (B1) fund

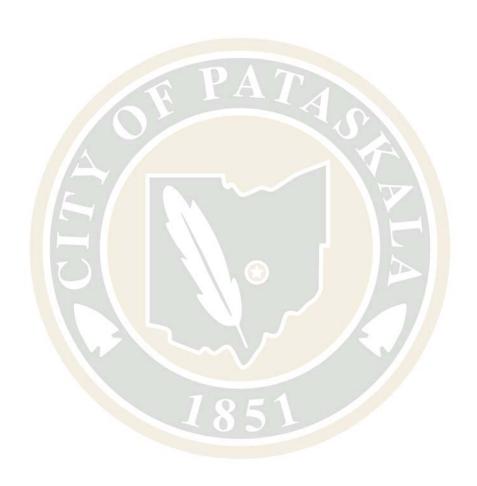

m, hl

unencumbered fund balance declined by \$152.6 thousand (27.58%), and the Police (B13) fund declined by \$288.1 thousand (26.06%) from 2012 as well. Much of the decline is the result of increased spending from the funds on projects and equipment. While these balance declines were not unanticipated, it will be important for the city to continue to closely monitor each of the key fund balances to ensure that adequate funding is available to provide the desired level of service to the community in the future. Unless income tax revenues increase dramatically in the near future (such as securing a major tenant for the business park/JRS), the ability of the city to be able to fund spending on capital projects may soon become limited.

I am providing this summary analysis to facilitate a better understanding of the sources of all city revenues, the status of collections to-date and available fund balances. The report will now turn its focus to each of the primary governmental and enterprise funds of the city: A1 – General Fund; B1 – Street Fund; B13 – Police Fund; C6 – Capital Improvements; and E1/E2 – Water/Sewer Funds.

Respectfully submitted,

General Fund (A1)

Revenue — On a year to-date basis, the general fund has been credited with total revenue of approximately \$585.7 thousand, which reflects 35.52% of budget. Excluding the impact of interfund advance repayments in the calculation, the total collected amount becomes 37.15% of budget. It is clear that through March 31, general fund revenues are running ahead of budget when compared to a straight-line rate of 25%. The timing of when the city receives its semi-annual property tax settlements, however, does have a tendency to skew the total. Eliminating the impact that property tax receipt has in the calculation, the total is running at 18.92% of budget, or approximately 6.1% below budget.

YTD General Fund Revenue by Source

General Fund Revenue - Budget

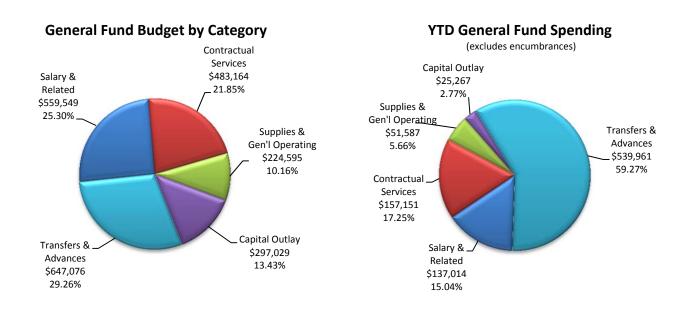

The largest revenue source for the general fund is property taxes, which account for 49.54% of the 2013 fund revenue budget. The 2013 budget is \$816.9 thousand, and is up by \$16.1 thousand (2.0%) from 2012 full-year collections. To-date, the general fund has received \$441,994 in property taxes, or 54.11% of budget. This total is up by \$25.4 thousand (6.09%) from the same period in 2012.

Intergovernmental revenues represent the second largest revenue category for the general fund. For 2013, it is projected to account for approximately \$217.7 thousand (13.2% of budget). This category consists of the following revenue items: local government distributions, property tax rollback/homestead exemption reimbursements from the state; electric utility income tax reimbursement; and cigarette/liquor taxes and fees. Through March 31, the fund has received \$20.6 thousand in this category, and is running below budget by \$33.8 thousand (15.54%). The total is down by \$31.0 thousand, or 60.05%, from the same three-month period in 2012 and is due solely to lower local government fund (LGF) revenues.

Fines, licenses and permits revenue is the other major general fund revenue source. The 2013 budget in this category is \$208.2 thousand (12.62% of budget), and consists of fines, forfeitures, building licenses/permits, and other miscellaneous permits. The city has received \$63.3 thousand in this category to-date (30.42% of budget), and is up by \$22.7 thousand (55.71%) from 2012. The variance is due to increased collection of building permits and licenses (up \$11.5 thousand or 35.9%), as well as increased fines and forfeitures (up \$11.2 thousand or 128.7%).

Expenditures – The general fund has a total appropriated expenditure budget for 2013 of approximately \$2.21 million. Total spending through March 31 is \$911.0 thousand, and is equal to 41.19% of the budget. Excluding interfund advances and transfers in the calculation results in total spending equal to 23.72% of budget versus a straight-line basis of 25%. Most of the categories are within the straight-line rate with the exception of contractual services, which is 32.53% of budget.

Salaries, wages and other employee-related costs represent the largest expense category with a 2013 budget of \$559.5 thousand, or 25.3% of the general fund budget. Spending through March 31 is \$137.0 thousand or 24.49% budget. This category is in-line with expectations through three months when compared to the straight-line rate of 25%.

Contractual services is another major expense category in the general fund. The 2013 budget in this category is \$483.2 thousand (21.85% of budget) and provides for non-employee personal services. Spending through March 31 is \$157.2 thousand, or 32.53% of budget, and is running above budget on a year to-date basis. Including encumbrances (i.e., purchase orders) in the total, 68.98% has been either spent or committed to be spent. It is important to note that much of the spending in this category does not tend to follow a linear path; rather it is typically disbursed in large 'chunks' to the vendors and consultants when the services are provided. We will continue to monitor this category closely to ensure that spending remains within the approved budget.

Supplies and general operating expenditures is the other significant expense category in the general fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2013 budget of \$224.6 thousand, or 10.16% of the fund's budget. Spending to-date is \$51.6 thousand or 22.97% of budget. Including encumbrances in the calculation, the total spent or committed is \$132.6 thousand (59.03% of budget). Spending in this category is up by \$11.0 thousand (27.13%) from the same three-month period in 2012. Much of the variance is due to annual dues and memberships being paid in January for the entire year.

Street Fund (B1)

Revenue – On a year to-date basis, the Street fund has been credited with total revenue of approximately \$444.2 thousand, which reflects 25.05% of budget. Total revenue to date is up by \$179.4 thousand (67.73%) from the same three-month period in 2012. The fund's primary revenue sources are income taxes and intergovernmental revenues.

YTD Street Fund Revenue by Source

Street Fund Revenue - Budget

Income tax collections in March were \$84.9 thousand, and are up by \$52.9 thousand (165.8%) compared to the same period in 2012. Year to-date income tax revenues credited to the fund are \$262.6 thousand, and represent 23.42% of budget.

comparison, collections through March 2012 were \$110.8 thousand, and represented 19.66% of the 2012 full-year collections. Accounting for the change in revenue allocation to the fund (from 15% to 32% of total collections), it appears that collections are running slightly ahead of last year at this point. The green and light blue bars in the chart to the right reflect the revenue that would have been allocated to the fund had the percentage had

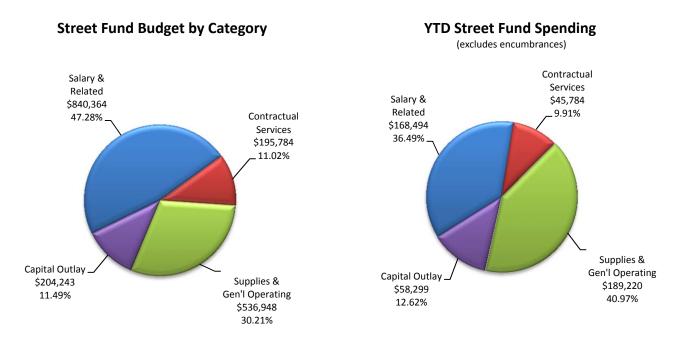

Income Tax Collections - Street Fund \$1.4 Millions \$1.2 \$1.0 \$0.8 \$0.6 \$0.4 \$0.2 \$-March March YTD FY Bud/Act FY 2013 \$84,870 \$262,623 \$1,121,230 ■ FY 2012 \$31,930 \$110,775 \$563,400 ■ FY 2012 w/32% \$68,117 \$236,320 \$1,201,920 ¥ FY 2011 \$37,047 \$138,797 \$816,259 ¥ FY 2011 w/32% \$177,660 \$47,420 \$1,044,812

not been modified in 2011 and 2012. In 2012, the fund would have received a higher overall distribution amount when calculating the amount 'as-if' the fund was receiving the current allocation percentage in that year, while in 2011 it would have received a slightly lower distribution.

Intergovernmental revenues in the Street fund are budgeted at \$617.8 thousand and represent 34.83% of the fund's revenue budget. This category is comprised of state-shared (i.e., permissive) taxes, and grants/loans from other governmental agencies. On a year to-date basis, the city has received \$155.0 thousand in this category (25.09% of budget), and is flat to the same three-month period in 2012. Compared to a straight-line basis of 25%, current year collections are in line with expectations.

The other category, Other Sources, is budgeted at \$11 thousand, and the city has received \$26.6 thousand to-date. This exceeds the expectations and assumptions used in developing the 2013 budget. We will be increasing the forecast to reflect the higher revenues.

Expenditures – The Street fund has a total appropriated expenditure budget for 2013 of approximately \$1.78 million. Total spending through March 31 was \$461.8 thousand and is equal to 25.98% of budget. The total compares slightly unfavorably versus a straight-line basis of 25%.

Salaries, wages and other employee-related costs represent the largest expense category with a 2013 budget of \$840.4 thousand, or 47.28% of the fund's budget. Spending through March 31 is \$168.5 thousand, or 20.05% of budget. The favorable YTD variance (\$41.6 thousand) and was the result of several open budgeted positions, partially offset by full-year funding of employee HRA accounts.

Supplies and general operating expenditures is another significant expense category in the Street fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2013 budget of \$536.9 thousand, or 30.21% of the fund's budget. Spending to-date is \$189.2 thousand, or 35.24% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$254.6 thousand or 47.42% of the budget. Most of the YTD variance is the result of full-year purchase orders for utilities, fuel, etc.

Spending on capital projects and equipment is the other major expense category in the Street fund. The 2013 budget in this category is \$195.8 thousand (11.02% of budget) and provides funding for street and roadway infrastructure maintenance and related equipment. Spending to-date is \$45.8 thousand, or 23.38% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$183.2 thousand or 89.67% of the budget. This higher rate of spending is due to the purchase of, or orders placed for, new capital equipment such as trucks, mowers, etc.

Police Fund (B13)

Revenue – On a year to-date basis, the Police fund has been credited with total revenue of approximately \$484.7 thousand, which reflects 21.14% of budget. Total revenue to-date, however, is approximately \$302.9 thousand (166.58%) higher than the same period in 2012. The major reason for the increase was the change in the fund's income tax allocation percentage in 2013 from 24% to 32%. The fund's primary revenue sources are income taxes and intergovernmental revenues.

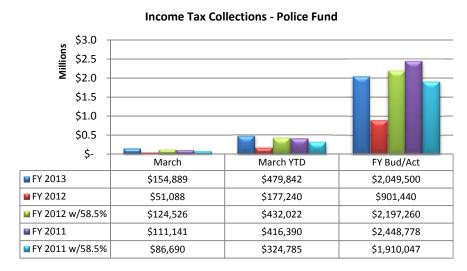

YTD Police Fund Revenue by Source

Police Fund Revenue - Budget

Year to-date income tax revenues credited to the fund are \$479.8 thousand and represent 23.41% of the budget. In comparison, collections through March 2012 were \$177.2 thousand and represented 19.66% of the 2012 full-year collections. It is important to note that the allocation to the fund has increased in

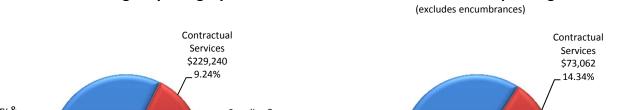

2013 from 24% to 58.5%. Adjusting for the change in allocations rates (see green and light blue bars in chart to the right) would indicate that collections are running above the 2012 pace for this fund. The green/light blue bars in the chart to the right have been restated to reflect the revenue that would have been allocated to the fund in 2011 and 2012 had the percentage been the same in all years.

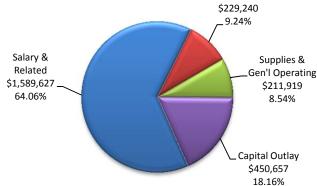

Intergovernmental revenues are budgeted at \$225 thousand and represent 9.81% of the fund's revenue budget. The category is comprised of revenues from other (federal, state and local) governmental agencies. The revenue currently in the 2013 budget is the LGIF loan (90%) for the construction of a MARCS antenna in the city.

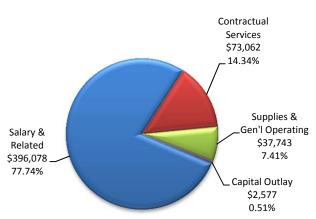

The other major category, Other Sources, has a budget of \$5.0 thousand, and the city has received \$3.0 thousand to-date.

Expenditures – The Police fund has a total appropriated expenditure budget for 2013 of approximately \$2.48 million. Total spending through March 31 is \$509.5 thousand and is equal to 20.53% of the 2013 budget, and compares favorably to the straight-line rate of 25%. Including encumbrances (e.g., purchase orders) in the total results in spending or commitments to spend of \$821.0 thousand, or 33.08% of the budget. Spending to date is approximately \$85.2 thousand (20.07%) higher than the same three-month period in 2012. The increase is due to higher wage and benefit costs as the result of filled officer positions that were open for a portion of 2012.

Police Fund Budget by Category

YTD Police Fund Spending

Salaries, wages and other employee-related costs represent the largest expense category with a 2013 budget of \$1.59 million, or 64.06% of the fund's budget. Spending through March 31 is \$396.1 thousand or 24.92% of budget, and is only slightly below budget. Compared to FY 2012, spending was up by \$63.9 thousand (19.24%) due to the full-year impact in 2013 of three additional Patrol Officers hired during 2012.

Supplies and general operating expenditures is another significant expense category in the Police fund. It combines a number of other basic types of expenditures including supplies, equipment, utilities and other miscellaneous expenses. It has a 2013 budget of \$211.9 thousand, or 8.54% of budget. Spending through March 31 is \$37.7 thousand and is 17.81% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$158.3 thousand (74.72% of budget). Compared to the same three-month period in FY 2012, spending was up by \$0.5 thousand (1.4%).

Spending on capital equipment is the other major expense category in the Police fund. The 2013 budget in this category is \$450.7 thousand (18.16% of budget) and provides funding for the acquisition of law enforcement-related equipment and capital improvements. Spending through March 31 was \$2.6 thousand, or 0.57% of budget. Including encumbrances in the calculation, the total committed to spend is \$143.9 thousand, or 31.9% of budget. The majority of the encumbered amount is for the order and outfitting of four (4) new cruisers. In addition to these purchases, \$250.0 thousand was appropriated for the construction of a MARCS radio tower. Most of the funding (90%) for the project will be provided by a 10-year, zero-interest loan from the LGIF program. The remaining budget is to provide a one-year payment on a capital lease for the required replacement radio equipment.

Capital Improvements Fund (C6)

Revenue – The Capital Improvements fund has a 2013 revenue budget of \$481.3 thousand. On a year todate basis, the fund has received approximately \$304.4 thousand in total revenue, or 63.25% of total budget. Excluding interfund transfers from the calculation results in a total of 25.15% of budget. The fund's primary revenue sources are income taxes and interfund transfers.

Income taxes are the primary revenue source for the Capital Improvements fund. The 2013 budget for income tax revenues in the fund is \$236.3 thousand. Year to-date income tax revenue credited to the

fund is \$59.4 thousand, or 25.15% of the full-year budget. comparison, collections through March 2012 were \$406.2 thousand, and reflected 19.66% of full year 2012 collections. It is important to note that the allocation to the fund has decreased in 2013 from 55% to 6.75%. Adjusting for the change in allocation rates (see green bar in chart to right) would indicate that collections are running \$9.6 thousand (19.18%) above the 2012 pace for this fund.

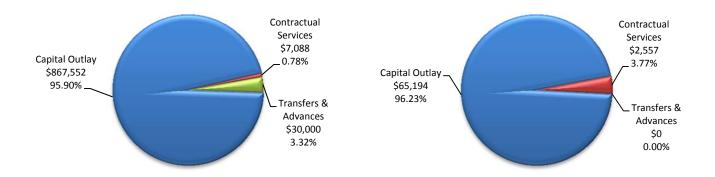

The other major category, Interfund Transfers, was budgeted at \$245 thousand, and that transfer was effected during the month of April. The transfer appropriation is intended to provide additional funding for planned capital improvement projects.

Expenditures – The Capital Improvements fund has a total appropriated expenditure budget for 2013 of approximately \$904.6 thousand. Total spending through March 31 was approximately \$67.8 thousand. Including encumbrances (e.g., purchase orders) of \$65.4 thousand into the calculation results in a spending ratio of 14.72%.

Capital Fund Budget by Category

YTD Capital Fund Spending

(excludes encumbrances)

As would be expected, spending on capital projects and equipment is the major expense category in the Capital Improvements fund. The 2013 budget in this category is \$867.6 thousand, (95.9% of budget) and provides funding for the construction of a number of infrastructure improvements. Spending through March 31 was \$65.2 thousand, or 7.51% of budget. Including encumbrances in the calculation, total committed spending is equal to \$130.6 thousand (15.05% of budget). The primary planned expenditures in this category were the result of carryover encumbrances on retainage associated with the 2012 Roadway Asset Management Plan (RAMP) projects. In addition to the funds carried over from 2012 for the 2012 RAMP program, the budget includes \$750,000 for the 2013 RAMP program and \$21,000 for the Brightwaters lift station paving project. The list of projects includes the following: (*asterisk indicates projects funded by \$750,000 from 2012 BAN issuance)

Project Name	2013 Budget	Spent and/or Encumbered	Unspent

The balance of the BAN funds that were either not spent or encumbered at the end of 2012 will be transferred into the Debt Service (D1) fund to assist in the payoff of the note that took place in March. As the city rolled the note into another 1-year note, the required amount of the new note was reduced by approximately that amount. We will continue to monitor the remaining encumbrances that were carried over into 2013. Any balance that would remain after the projects are completed would also be transferred into the Debt Service fund as well.

Contractual services is the other major expense category in the Capital Improvements fund. The 2013 budget in this category is \$7.1 thousand (0.78% of budget) and provides for non-employee personal services. Spending through March 31 is \$2.6 thousand, or 36.07% of budget. Spending in this category is designated for the payment of tax collection fees to the Regional Income Tax Agency (RITA) and for taxpayer refund requests. Spending to-date is \$10.6 thousand (80.53%) lower than the same three-month period in 2012.

Water Utility Fund (E1)

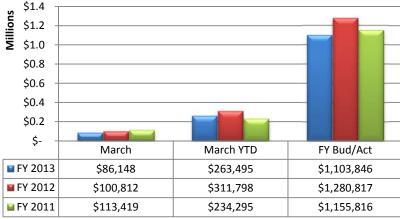

Revenue – The Water fund has a 2013 revenue budget of \$1.16 million. The fund's primary revenue sources are charges for service and other sources. On a year to-date basis, the Water Utility fund has been credited with total revenue of approximately \$275.6 thousand, or 23.68% of budget. The total is down by \$37.8 thousand, or 12.05%, from the same three-month period in 2012.

YTD Water Fund Revenue by Source

Water Fund Revenue - Budget

Charges for service represent the largest revenue category in this fund. Year to-date revenues credited to the fund are \$263.5 thousand and represent 23.87% of 2013 full-year collection the budget. In comparison, collections through March 2012 were \$311.8 thousand and represented 24.34% of the 2012 full-year collections. Assuming that this rate collections continues, the current revenue projection could be overstated by approximately \$25 thousand. We'll continue to

monitor this revenue line item.

The other major category, Other Sources, has a budget of \$60 thousand. To-date, the city has received \$12.1 thousand (20.21% of budget). This line item accounts for any non-usage related fees and charges.

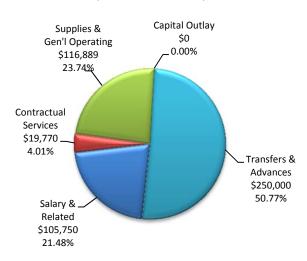

Expenditures – The Water Utility fund has a total appropriated expenditure budget for 2013 of approximately \$1.28 million. Total spending through March 31 is approximately \$492.4 thousand, or 38.53% of budget. Including encumbrances (e.g., purchase orders) of \$273.4 thousand in the total results in total spending or commitments of 59.93% of budget. The majority of the encumbered balance is associated with full-year spending contracts such as utilities, fuel, etc.

Water Fund Budget by Category

YTD Water Fund Spending

(excludes encumbrances)

In 2013, supplies and general operating expenses is the primary major expense category in the Water Utility fund. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2013 budget of \$492.0 thousand, or 38.50% of the fund budget. Spending through March 31 is \$116.9 thousand, or 23.76% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$377.2 thousand, or 76.66% of budget. Much of the encumbered balance is due to full-year contract spending on operating supplies, utilities and fuel. Compared to the same three-month period in FY 2012, spending in this category is down by \$4.3 thousand, or 3.57%.

Salaries, wages and other employee-related costs represent the other major expense category with a 2013 budget of \$437.0 thousand, or 34.2% of the total fund budget. Spending through March 31 is \$105.8 thousand, or 24.2% of budget. Compared to the same three-month period in FY 2012, spending is up by \$13.9 thousand or 15.1%. The unfavorable variance to-date is primarily due to wage and benefit savings associated with the open water supervisor position in 2012.

Sewer Fund (E2)

Revenue – The Sewer fund has a 2012 revenue budget of approximately \$1.08 million. The fund's primary revenue sources are charges for service, intergovernmental and other sources. On a year to-date basis, the Sewer Utility fund has been credited with total revenue of approximately \$246.9 thousand, or 22.91% of budget. Compared to the same three-month period in 2012, revenue is down by \$8.4 thousand, or 3.30%.

YTD Sewer Fund Revenue by Source

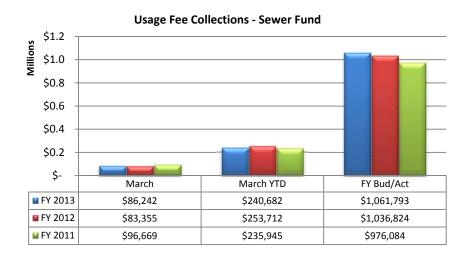

Sewer Fund Revenue - Budget

Charges for service represent the largest revenue category in this fund. Year to-date 2013 revenues credited to the fund are approximately \$240.7 thousand, or 22.67% of budget. In comparison, collections

for the same three-month period in 2012 were \$253.7 and represented 24.47% of the 2012 full-year Assuming that collections. this rate of collections continues, the current revenue projection could be overstated by approximately \$75 thousand. We'll continue to monitor this revenue line item.

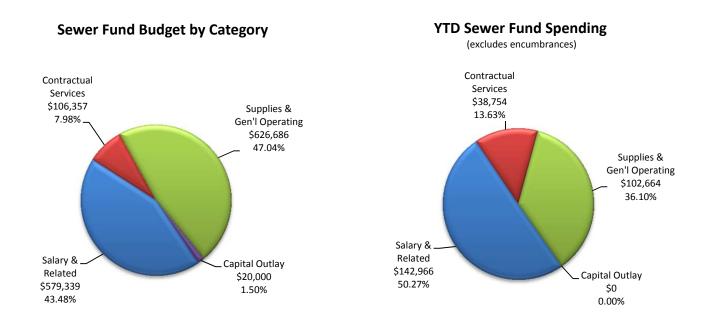

The other major category, Other Sources, has a budget of \$5.0 thousand. To-date,

the city has received \$6.2 thousand. We will be increasing the forecast to reflect the higher than anticipated rate of collections.

Expenditures – The Sewer Utility fund has a total appropriated expenditure budget for 2013 of approximately \$1.33 million. Total spending through March 31 is approximately \$284.4 thousand, or 21.41% of budget. Including encumbrances (e.g., purchase orders) of \$259.8 thousand in the calculation results in a spending ratio of 40.97%. Much of the encumbered balance is related to full-year contract

spending such as fuel, utilities and supplies. Compared to the same three-month period in 2012, spending in the fund was down by \$540.4 thousand (65.52%) in 2013. The primary drivers of the decrease were: reduced interfund transfers (down \$585.2 thousand); increased wages and benefits (up \$47.3 thousand); decreased supplies and materials (down \$2.1 thousand); and decreased contractual supplies (down \$0.3 thousand).

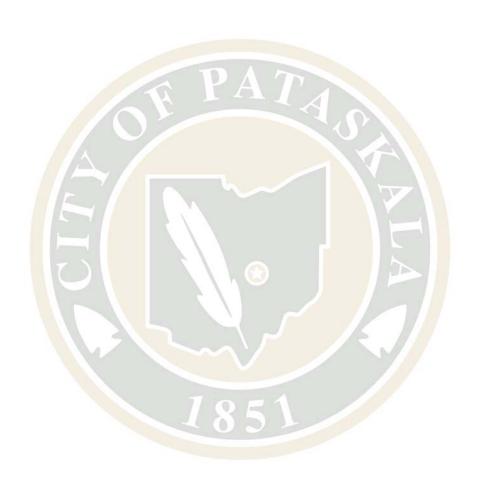

For 2013, the largest expense category for the Sewer fund is supplies and general operating expenditures. It combines a number of other basic types of expenditures including operating supplies, equipment, utilities and other miscellaneous expenses. It has a 2013 budget of \$626.7 thousand, or 47.04% of the fund budget. Year to-date spending is \$102.7 thousand, or 16.49% of budget. Including encumbrances in the calculation, the total spent (or committed to spend) is \$323.2 thousand, or 51.9% of budget. Much of the encumbered balance is due to full-year contract spending on operating supplies, utilities and fuel. Compared to the same three-month period in FY 2012, spending in this category is down by \$2.1 thousand, or 2.01%.

Salaries, wages and other employee-related costs represent the other major expense category with a 2013 budget of \$579.3 thousand, or 43.48% of the total fund budget. Spending through March 31 is \$143.0 thousand, or 24.68% of budget. Compared to the same three-month period in 2012, spending is up by \$47.3 thousand, or 49.43%. Much of the increase is due to wage and benefit savings associated with a mid-year 2012 hire of the utility operator position, as well as increased allocation in 2013 of administrative staff to the utility division.
